

**Options Trading: The Beginner's Guide to Constructing the Ultimate Investment Strategy** (Dorling Kindersley, 2023)

**Errata**

**P. 90:** Under Bearish Strategies, the most bearish strategy is selling calls, not buying them.

**P. 165:** The equation at the top of the page should be

$$\text{Put premium} = \text{stock price} - \text{call price} + \frac{\text{strike price}}{(1+r)^t}$$
